

Lesson Classification: UNCLASSIFIED

Lesson ID: 50282-64710

Title: AAV MOBILITY

Operation/Exercise Name: RESTORE HOPE

Observed: 27 Apr 1993

Originator: BLT 1/2, S-3

POC: LT LANDON Commercial: (919)451-3288 DSN: 4843288

5. (U) OBSERVATION:

AAV's are not as mobile on Somali
secondary roads as are wheeled vehicles.

6. (U) DISCUSSION:

24th MEU conducted several long range
tactical road marches in the Kismayo area, the longest of which
was 300 miles. On each of the marches the slowest element was
AAV's. This was not only due to actual speed, but also the
requirement for maintenance/hull checks.

7. (U) LESSON LEARNED:

When planning road marches in Somalia,
base time - distance calculations on AAV rates of march.

8. (U) RECOMMENDED ACTION:

Carefully consider the mission to be accomplished when building task organizations in
Somalia. AAV's provide good armor protection, but slow the force down
considerably.

9. (U) COMMENTS:

None.
